Home Hazard Scene 1

Identify all 15 hazards and risks in the following picture by circling them, or colouring them a different colour.
Home Hazard Scene 2

Identify all 15 hazards and risks in the following picture by circling them, or colouring them a different colour.
Home Hazard Scene 3

Identify all 15 hazards and risks in the following picture by circling them, or colouring them a different colour.
Home Hazard Scene 4

Identify all 15 hazards and risks you can find in the following picture by circling them, or colouring them a different colour.
Spot the Risky Difference

Think of an environment that you spend a lot of time in such as your home, your school, etc. Using the following box, draw your chosen place as a safe environment with no hazards and dangers.

In the next box, draw your chosen place again, but this time include as many dangers and hazards as you can think of, big and small ones. Make it an unsafe place that if real, might cause a bad accident.

Give your safe and unsafe pictures to a friend, parent or grandparent and see if they can spot the hazards.
Once upon a time...

In the following box, draw a picture of an accident happening to someone the same age as you. You could base it on an accident that happened to you, or someone you know.

Write a small story underneath to describe what happened, who came to help and how the people who were involved felt.
